Agenda item 1: DE Conflict and the results of the sprint

Conclusion: The DE team clarified the how they fixed the conflict related to 2 members of the team. The team mentioned that most of the tasks planned for the sprint were not completed because of the conflict and because of misunderstanding related to the layers of the system.

Agenda item 2: IM team results of the sprint

Conclusion: The team completed generally all the tasks planned for the first sprint.

Agenda item 3: IoT team results of the sprint

Conclusion: The team created the design and the implementation of the bridge app, but the team work progress was stopped by the fact that the hardware was not available during the first sprint and that the course material needed for the further development of the project was taught in the end of the sprint.
